HALF HOLIDAY BEING OBSERVED

Mining Stock Brokers Shut Up Their Offices and Go to the State Fair.

FOREMOON SESSION

Columbus Con. a Feature of the Open Board Transactions - Closing Ouotations and Sales.

The members of the mining stock brokerage fraternity are spending the afternoon at the state fair grounds and are therefore observing a half holiday in accordance with the proclamations of the chief executives of the state and city. The forenoon sessions of the exchange were held as usual, however, and Acting Secy. Altree reported the sale of 14,025 shares of stock for the sum of \$5,946.50.

The open board transmactions exceeded those of the regular call by considerable and, as was the case yesterday, Columbus Consolidated participated quite freely, but at lower figures. Bullion Beck Tunnel continued strong and was a seller at 12 cents a share. It is said Uncle Jesse Knight is the most conspicuous buyer in the field, it being his purpose to become the owner of as much of the stock as he possibly can, notwithstanding he is already the possessor of considerably more than a control. Lower Mammoth started off at 33 cents during the regular call and sold down to 39 cents on the open board. Some small lots of Daly came out, the same finding purchasers at 70 and 72% cents. New York held fairly steady, while Star Consolidated weakened slightly. ened slightly.

IN FAY DISTRICT.

Inter-State Mining & Reduction Company is Preparing for Energetic Campaign.

AHEAD OF BULLFROG COUNTRY

Is Opinion Expressed by S. P. Moore Of Provo--Los Augeles Capital Invested - Will Build Mill.

Special Correspondence.

Provo, Oct. 3 .- S. P. Moore, superintendent of the Interstate Mining and Reduction company, which has lately been organized to develop a big gold property at Fay, Nevada, left last evening for the mine.

Mr. Moore, who with C. O. Newell, also of Provo, are the discoverers of the property owned by the new company is enthusiastic over the prospects for opening up a big mine, and over the promise the district holds out to the prospector. He claims that the district is ahead of Bullfrog in its possibilities. The ledge on which his company's mines are located, is 4,000 feet in length and from 20 to 150 feet in width, and the ore will average \$10 to the ton.

A large force of men will be put to work, doing development work as soon as Mr. Moore returns, and a mill will be erected within the next few months. The ore is a free gold proposition, and some of it carries high values. Los Angeles capitalists are furnishing the money to open the property, and there will be no delay for lack of capital. D. R. Kilbourne of Los Angeles is the president, C. O. Newell, the vice president, and C. H. Kilbourne of Los Angeles, secretary and treasurer
